

ALX Foundations: Milestone # 8

Worksheet

STEP 1

If Wireframes:

Include images of each screen of your wireframes. The images must be digitally created (using a tool like Miro or Keynote), not drawn by hand. You should have at least 3 images. Each image must contain: at least 1 navigation indicator, at least 1 element (such as a button), and at least 1 annotation.

STEP 2

In 3-5 sentences, please share an overview of your and/or your team's process of creating wireframes or a prototype. What was the most challenging thing about the process of creating your wireframes or prototype? What did you learn?

In our team, creating wireframes or prototypes typically involves an initial brainstorming session to gather ideas and define the scope of the project. We then move on to sketching out rough wireframes on paper or using digital tools, focusing on layout, functionality, and user flow. Once we have a solid foundation, we iterate on the wireframes, refining them based on feedback and usability testing. The most challenging aspect often lies in striking the right balance between simplicity and complexity, ensuring the prototype effectively communicates the core functionality without overwhelming the user. Through this process, we've learned the importance of constant iteration and user feedback, as well as the value of collaboration and communication within the team.

STEP 3

Create a link to the **slides** that you and your team created for the **Team Activity: Create Your Pitch Slide Deck**, and share it in the doc. Make sure that the link is viewable for all.

<https://docs.google.com/presentation/d/1wyQ-OKi5M-Z35ae2G092C6mXLJK9WQPtyploA06YDT4/edit?usp=sharing>

STEP 4

Please briefly describe your role in helping create the slide deck.

In creating the slide deck, my role typically involves contributing content ideas, refining the messaging to ensure clarity and conciseness, and providing input on the overall design and layout. I work closely with the team to align the content with the presentation's objectives and target audience. Additionally, I may assist in gathering relevant data, creating visuals, and ensuring consistency throughout the deck. My focus is on crafting a compelling narrative

that effectively communicates key points and engages the audience.

Step 5: Reflections (Individual)

Please share your **personal** reflections on your experience with your team so far.

Step 5 : Team Process Reflections

Please answer the following questions.

A. *What is working well with your team?*

What's Working Well: High attendance and effective planning during team meetings.

B. *What is one good thing that happened during your team meeting?*

Good Thing Happened: Strategic planning for milestone achievement despite partial team participation.

C. *What is one thing your team could do better in the next meeting?*

Improvement Needed: Enhanced communication and participation from all team members.

D. *Are you experiencing any concerns or frustrations with your team? If yes, what can you personally do to lessen the concern/frustration?*

Personal Action: Increase accessibility and explore alternative communication channels.

E. *How would you rate your ability to communicate with your team members on a scale of 1 to 4? (1=extremely poor and 4=excellent)*

Communication Rating: 4 - Excellent

F. Overall, how satisfied are you with how well your team is working together? (On a scale of 1 to 4, with 1=extremely poor and 4=excellent)

What's Working Well: High attendance and effective planning during team meetings.

G. Is there anything else you'd like to share about your team and their process?

Good Thing Happened: Strategic planning for milestone achievement despite partial team participation.
